SALAH M. EL HAGGAR

Professor of Energy & Sustainable Development at AUC

Dr. Salah M. El Hagggar has 30 years of experience in energy and sustainable development consulting and university teaching. Dr. Hagggar has been a visiting professor at Washington State University and at the University of Idaho, USA. He is presently the professor of Energy and Sustainable Development in the Mechanical Engineering Department at the American University in Cairo.

Dr. Hagggar has received 28 academic honors, grants, and awards. He received the Outstanding Teaching Award from AUC in 1995, as well as an Excellence in Research and Creative Endeavors Award in 2009. In 2012, Dr. El-Hagggar received the Provost Award in recognition of innovations in environmental science and engineering, along with the Distinguished Service Award for 25 years of service at AUC. Additionally, Dr. El-Hagggar has published 230 scientific papers in the fields of environmental science, sustainable development, and energy. He has also delivered 53 invited presentations, authored 57 technical reports, written 17 books, and contributed 15 book chapters.

Dr. El-Hagggar has been working on environmental technologies since 1987, with a paramount objective to transform waste into useful products. He developed a simple theory called the 7Rs Rule to approach the cradle-to-cradle concept. This theory fundamentally focuses on all kinds of recycling, including on-site recycling, off-site recycling, and sustainable treatment for potential recycling.

In 2007, Dr. El-Hagggar developed a formula and indicator for sustainable development, which he detailed in his book "Sustainable Industrial Design and Waste Management: Cradle-to-Cradle for Sustainable Development," published by Elsevier Academic Press. This book was the first worldwide to demonstrate the concept of net zero waste according to cradle-to-cradle principles, aiming to protect both the environment and natural resources while integrating these principles into business plans to achieve sustainability.

ADEL SOLIMAN

Manager of Facility Management
at NBE

Tamer Elfeky is a Regional Products Manager at Dynachem, a certified trainer, and a life coach specializing in soft skills and self-development.

He is the author of Better Life (2023) and has shared his insights on self-improvement and motivation through numerous YouTube episodes and TV interviews.

STRATEGIC PARTNERS

Banque Misr (BM) was established in 1920 by the pioneer economist and financial expert Mohamed Talaat Harb Pasha, who spearheaded the concept of investing in national savings and directing them toward economic and social development. Thus, Banque Misr was established as the first wholly Egyptian-owned bank.

Currently, BM owns shares in 157 companies across different fields, ranging from finance, tourism, housing, agriculture and food, and communication and information technology.

A true pioneer in the region, Banque Misr became the first bank in Egypt and North Africa to comply with PCI data security standards, upon obtaining the latest version of the global Payment Card Industry Data Security Standard (PCI DSS 3.2.1) certification. Today, Banque Misr is proud to offer one of Egypt's largest ATM networks, located across all areas of Egypt.

Banque Misr's role is visible in all economic fields due to its geographic outreach. The bank has more than 20,000 employees, serving a large base of more than 13 million clients in Egypt, with a total paid-up capital amounting to EGP 15 billion.

Banque Misr also values its regional and international presence, which includes its five branches in the United Arab Emirates and one in France. In addition, the bank's international presence includes subsidiaries in Lebanon and Germany, as well as representative offices in China, Russia, South Korea, and Italy, and a global network of correspondents.

STRATEGIC PARTNERS

Orascom Construction PLC is a leading global engineering and construction contractor primarily focused on infrastructure, industrial and high-end commercial projects in the Middle East, Africa, and the United States.

The Group has consistently ranked among the world's top contractors.

Orascom Construction also develops and invests in infrastructure opportunities, owns 50% of BESIX Group, and holds a construction materials, facility management, and equipment services portfolio.

For more information, please visit www.orascom.com.

STRATEGIC PARTNERS

Kharafi National is a Leading Integrated Construction, Facilities Management and Fabrication services developer with diversified operations in the Construction and Facilities Management sectors in Egypt and the Middle East.

Kharafi National was incorporated in 1999 as part of a carefully devised strategy for regional expansion in coordination with "Mohamed Abdel Mohsen Al-Kharafi Group (MAK's) investment plans" in Egypt and Africa. Since then, it has become a key player in the Construction and Facilities Management sectors in Egypt.

The Company has established the Facilities Management Division to manage special projects for clients who wanted to deal with a Single Contractor that can provide all the functions needed to support the FM's routine operations as a one-stop source for quality, design, operation, and maintenance by offering a truly comprehensive range of Total Facilities Management Services (TFM) that provide a limitless end-to-end service with no boundaries as a single point of contact.

Kharafi National FM's clients represent the most prominent public and private entities in Egypt as it has a long track record in the FM field where the company manages key facilities for major Egyptian institutions and vital locations.

Among them are the following: Terminal 2 and Terminal 3 at Cairo International Airport, the headquarters and 150 branches of the National Bank of Egypt in addition to WESAL CITY the residential city belonging to the bank, the main branch and several branches of Banque Misr, the Midtown branch, the New Administrative Capital and Mansoura branches of the Central Bank of Egypt, and various industrial, commercial and residential sectors with its partners in the private sector such as Marassi water treatment plant for EMAAR MISR, Al-Mostakbal City treatment plant with MIDAR, as well as the maintenance of Sarai compound for Madinat Masr Company.

Additionally, Sharm El-Sheikh International Hospital, Ras Sidr Hospital and affiliated buildings, South Sinai Branch Family Medical Centers & units for Egypt Healthcare Authority (EHA).

STRATEGIC PARTNERS

SIEMENS

Siemens AG (Berlin and Munich) is a leading technology company focused on industry, infrastructure, mobility, and healthcare.

The company's purpose is to create technology to transform the everyday, for everyone. By combining the real and the digital worlds, Siemens empowers customers to accelerate their digital and sustainability transformations, making factories more efficient, cities more livable, and transportation more sustainable.

Siemens also owns a majority stake in the publicly listed company Siemens Healthineers, a leading global medical technology provider pioneering breakthroughs in healthcare. For everyone. Everywhere. Sustainably.

In fiscal 2024, which ended on September 30, 2024, the Siemens Group generated revenue of €75.9 billion and net income of €9.0 billion.

As of September 30, 2024, the company employed around 312,000 people worldwide on the basis of continuing operations. Further information is available on the Internet at www.siemens.com.

STRATEGIC PARTNERS

About us

As Contract Facility Management, a subsidiary of Orascom Construction, we proudly celebrate 21 years of providing integrated facility management services across Egypt with 4000+ employees and a client portfolio exceeding 162 clients.

We hold multiple ISO certifications (41001, 9001, 45001, 14001, 55001) and provide integrated facility management solutions tailored to our clients' needs across various sectors such as industrial, commercial, retail and healthcare. Our services encompass hard services (Engineering, Maintenance) and soft services (e.g., Housekeeping, Security and Landscaping).

We are thrilled to announce our expansion into the Saudi Arabian market, bringing our proven expertise and dedication to a new region. This expansion represents a significant milestone, highlighting our commitment to growth and excellence. Furthermore, we have expanded our offerings to include consulting services in information technology and facility management, leveraging our extensive knowledge to help clients optimize their operational efficiency.
