

Applicant Guidelines – Waste Management Company of the Year Award

1. Introduction

The Waste Management Company of the Year Award recognizes organizations that have demonstrated excellence in delivering sustainable, innovative, and compliant waste management solutions that support the Facility Management industry and environmental stewardship.

2. Eligibility

- Waste management companies
 - Environmental service providers
 - Recycling and waste treatment operators
 - Projects and operations may be ongoing or completed
 - One submission per company per category
-

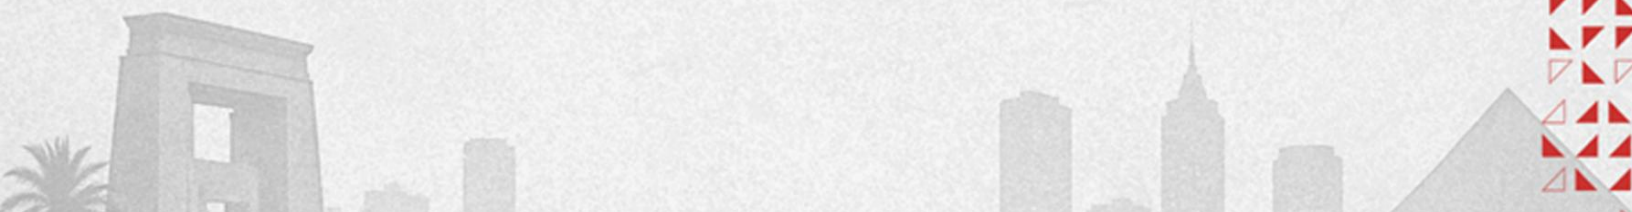

3. Submission Requirements

- One consolidated PDF file
 - Recommended length: 10–20 pages
 - Language: English
-

4. Suggested Submission Structure

Section 1: Company Overview

Provide an overview of the company, scope of waste management services, and market presence.

Section 2: Sustainability Practices

Explain sustainability initiatives applied within waste management operations, supported by reports and data showing their impact.

Section 3: Innovation and Technology

Describe innovative technologies or solutions used to improve waste management efficiency, such as automation, tracking systems, or advanced recycling methods.

Section 4: Compliance and Governance

Explain how the company ensures compliance with waste management regulations, permits, and industry standards.

Section 5: Community Engagement

Describe involvement in community-based waste management initiatives, awareness campaigns, or partnerships.

Section 6: Performance Metrics

Provide measurable data demonstrating:

- Waste reduction rates
- Recycling and diversion percentages
- Operational efficiency improvements

Section 7: Environmental Impact

Demonstrate positive environmental outcomes, such as reduced landfill dependency, emissions reduction, or resource recovery.

Section 8: Employee Training and Engagement

Explain training programs and initiatives that educate employees on waste management best practices and safety.

Section 9: Financial Performance

Demonstrate cost savings, operational efficiencies, or financial benefits achieved through waste management strategies.

Section 10: Supporting Evidence

Include reports, KPIs, certificates, audits, photos, dashboards, or third-party verification where applicable.

5. Evaluation Criteria

Submissions will be evaluated based on:

- Sustainability and environmental impact
 - Innovation and technology adoption
 - Compliance and governance
 - Community and employee engagement
 - Measurable performance and financial outcomes
-

6. Important Notes

- All submitted information will be treated as confidential
- The organizing committee may request clarification or additional documentation
- Incomplete submissions may not be considered
