OUR COMMITTEE

GAMAL ALZIADY

FM consultant at NBE

With over three decades of distinguished leadership experience across the military and banking sectors, Mr. Gamal El Ziady has played a pivotal role in shaping Egypt's facility and property management landscape.

As General Manager and Facility Management Consultant at the National Bank of Egypt for nearly two decades, he has led transformative initiatives centred on sustainability, strategic planning, and operational excellence.

His expertise spans end-to-end FM operations - from infrastructure management and budget optimization to contract governance and proactive maintenance strategies. A strong advocate for digital transformation, he continues to champion the adoption of AI, IoT, and data-driven decision-making, addressing key challenges such as system integration, data security, and skills development to future-proof facilities.

A certified FMP and SFP professional, Mr. Gamal El Ziady has been a driving force behind EFMF 2023, 2024, and 2025, where his leadership and vision significantly contributed to the forum's growth, relevance, and industry impact.

YASSER SEYAM

Director, Facility
Management

With extensive experience across real estate development and large-scale facility operations, Mr. Yasser Seyam has built a distinguished career in driving operational excellence, efficiency, and compliance across diverse sectors.

As Director of Facility Management at City Edge Developments, and through his previous leadership roles at Al-Futtaim Real Estate Egypt and Emaar Misr, he has consistently delivered high-impact FM strategies that enhance asset performance, optimize costs, and support long-term sustainability.

His expertise spans facility planning, budgeting, project management, and operational optimization, with a strong focus on leveraging technology and innovative practices to improve service quality and business continuity.

Over the years, Mr. Yasser Seyam's insight, commitment, and strategic contribution have played a valuable role in supporting the success and evolution of the Egypt Facility Management Forum. His presence continues to add significant value to the forum's mission of shaping a more resilient, efficient, and future-ready FM industry.

**CITY EDGE
DEVELOPMENTS**

MUHAMMED REDA

GM Facility & Property Management

With more than 18 years of impactful leadership across the Middle East, Mr. Muhammed Reda has played a pivotal role in shaping modern facility and asset management practices across large-scale developments and mixed-use portfolios.

As General Manager – Facility & Property Management at Qatari Diar, he continues to drive growth, service innovation, and operational excellence, positioning assets as benchmarks for quality, efficiency, and long-term value. His previous leadership at Emaar Misr further strengthened FM operations at scale through performance optimization and strategic transformation initiatives.

Beyond operations, Mr. Muhammed Reda is deeply committed to knowledge sharing and talent development. As an FM Instructor at the American University in Cairo, he bridges real-world practice with academic excellence, helping prepare the next generation of FM leaders for the evolving demands of the industry.

In recognition of his influence and contribution, Mr. Muhammed Reda was named a Global Facility Management Influencer in 2025 by the International Facility Management Association (IFMA) - a milestone that reflects his thought leadership, technical depth, and regional impact. His continued support and strategic insight have been a true driver behind the success and evolution of EFMA over the years, adding exceptional value to the forum's vision, content, and industry relevance.

SHADY HANAFY

Director of Facilities
and General Services

As Director of Facility and General Services at Orange Egypt, Mr. Shady Hanafy brings over two decades of leadership experience in asset and facility management across Egypt and Africa. His strategic vision and operational expertise have played a vital role in advancing modern FM practices within large-scale corporate environments.

At Orange Egypt, he leads critical functions including real estate management, fleet operations, security management, HSE protocols, project management, and operation & maintenance ensuring business continuity through digital transformation and operational excellence.

A strong advocate of ESG integration and the Green Facility movement, Mr. Hanafy consistently champions energy efficiency, carbon reduction, and sustainable facility operations aligned with global best practices.

ISMAEL ESMAT

Facilities Director

With extensive experience as a facilities Director and consultant, Mr. Ismael Esmat has built a distinguished career specializing in large-scale healthcare and hospital environments, where operational excellence and compliance are non-negotiable.

Throughout his career, he has led major healthcare infrastructure projects, ensuring seamless operations, regulatory adherence, and resilient facility performance. His expertise spans strategic facilities planning, sustainability, emergency preparedness, and facility optimization, all while maintaining a strong alignment between infrastructure capabilities and clinical as well as patient-care objectives.

Mr. Ismael's insight and hands-on leadership have been a valuable contribution to the success of EFMF over the past years, adding depth, credibility, and real-world perspective to the forum's discussions. His role as a Committee Member continues to strengthen the event's mission of advancing facility management standards in critical sectors.

GEOFF WILLIAMS

Principal

With nearly 30 years of experience as an executive leader, consultant, trainer, and global speaker, Mr. Geoff Williams has built a distinguished career across healthcare, corporate real estate, hospitality, and critical environments. His work has consistently focused on driving operational excellence, leading large-scale transformations, and aligning strategy with execution across diverse international markets.

Throughout his career, he has overseen complex facility portfolios spanning tens of millions of square feet, led strategic initiatives, and supported organizations in improving performance, efficiency, and customer experience within the built environment. His expertise spans strategic management, change management, process improvement, and business transformation, supported by extensive global experience across MENA, Europe, and North America.

Mr. Geoff's global perspective and deep industry expertise bring significant value to EFMF, enriching discussions with practical insights and international best practices. As a Committee Member, he strengthens the forum's position as a platform connecting global expertise with regional industry development.

AHMED RASHED

Facility Manager

Ahmed is a Facility Manager at the National Bank of Egypt, with over 17 years of experience managing critical facilities within highly regulated banking environments. His expertise spans operational compliance, service provider management, risk management, and business continuity across complex financial institutions.

Holding professional certifications including CFM, FMP, and SFP, Ahmed brings a strong foundation in strategic facilities planning, operational excellence, and industry best practices. He is widely recognized for his structured approach, attention to detail, and strong commitment to maintaining high-performance workplace environments while mitigating operational and compliance risks.

SHERIF SOUFI

Maintenance and
Facility Management
Dep General Manager

With over 21 years of experience in Facility Management, Sherif currently serves as Deputy General Manager for Maintenance and Facility Management at the National Bank of Egypt, leading large-scale operations across complex and highly regulated banking environments.

His professional journey focuses on building efficient, resilient, and cost-effective facility management systems that support business continuity, operational excellence, and enhanced customer experience.

Sherif has a strong track record in strategic planning, leadership development, cost optimization, and driving digital transformation initiatives that improve service quality and operational transparency.

Known for combining a strategic mindset with a hands-on leadership approach, Sherif enables teams to deliver consistent results while adapting to evolving business and regulatory requirements. His perspective reinforces the role of Facility Management as a key enabler of organizational performance, not merely a support function.

MOHAMED ABDELHAKIM

Manager, Facility
Management and
Real Estate

With more than two decades of leadership across Facility Management and Real Estate, and through his role as Manager of Facility Management & Real Estate at Orange Egypt, Mohamed brings a well-rounded, strategic viewpoint shaped by managing large-scale operations within complex corporate environments.

Throughout his career, he has consistently driven operational improvement, optimized costs, and elevated service quality, while leading cross-functional teams and overseeing high-impact initiatives within both facilities and real estate functions.

MAHMOUD MANSOUR

Senior Manager,
Facility Management

With over 12 years of experience in Total Facility Management and Operational Excellence, Mahmoud brings a well-rounded perspective shaped by leadership roles across prominent real estate and development organizations, including City Edge Developments, Al-Futtaim Group Real Estate, and Emaar Misr.

Currently serving as Senior Manager, Facility Management, he oversees large-scale portfolios exceeding 5,000 units, spanning complex mixed-use developments. His expertise covers facility planning, budgeting, project management, energy efficiency, and CAFM implementation - all contributing to the delivery of high-performing and sustainable assets.

CITY EDGE
DEVELOPMENTS

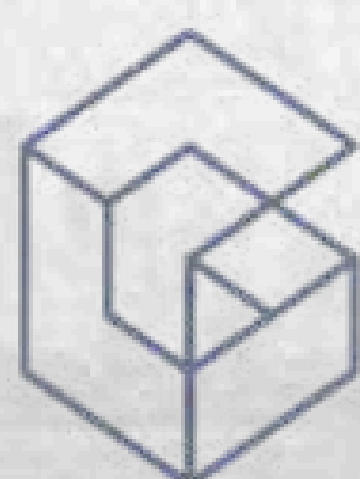

SHADY YEHIA

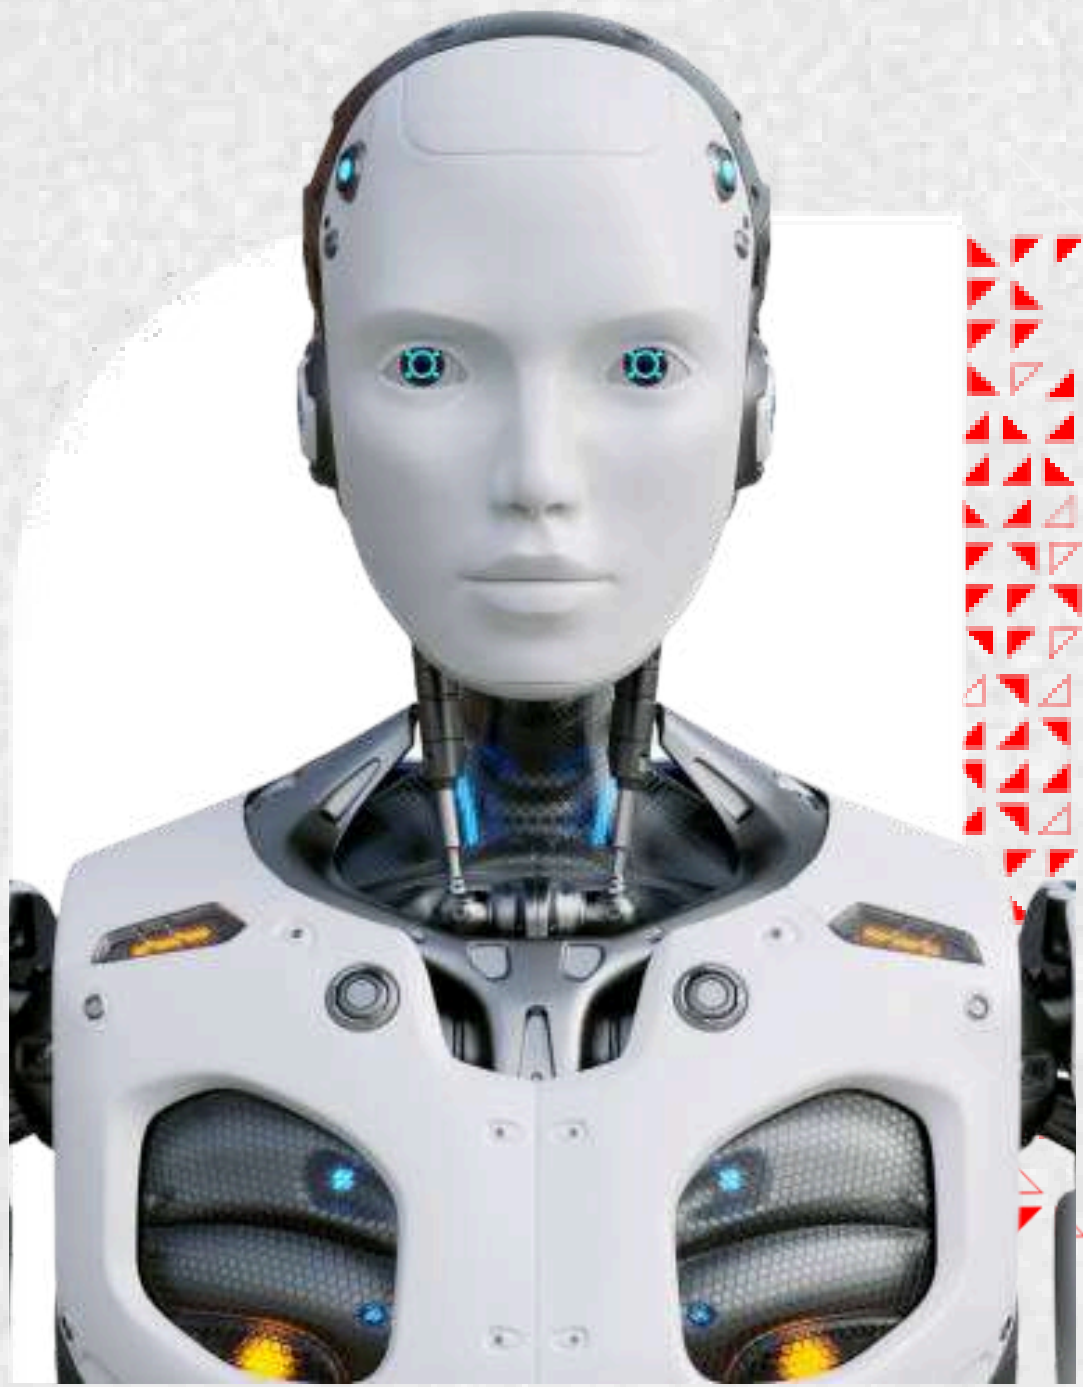

Head of Facilities and Real Estate Management

With more than 20 years of leadership in Facilities and Property Management, Shady brings a rare combination of global certification, operational depth, and strategic vision to the FM industry. Currently serving as Head of Facilities and Real Estate Management at Genpact, he leads initiatives focused on operational excellence, innovation, and sustainable growth across complex corporate environments.

His expertise is reinforced by elite international credentials, including CFM (IFMA), ProFM (USA), and an FM Diploma (UK), alongside his active role as an educator at the American University in Cairo, where he contributes to shaping the next generation of FM, project, and asset management professionals.

Beyond operations, Shady plays a pivotal role in advancing FM standards regionally and globally - contributing as an IFMA Global Subject Matter Expert, leading continental initiatives through AfricaFM, and supporting talent development across emerging markets.

AIDEN NOVA

AI Committee Member –
EFMF 2026
Digital Strategy & Smart
Facilities Advisor

Aiden (Artificial Intelligence Digital Executive Network) represents the shift toward smarter, data-driven decision-making, bringing insights powered by global trends, predictive analytics, and intelligent systems.

OUR SPEAKERS

Moataz Hassan

Facilities Director

With extensive experience in leading facility operations and managing high-performance environments, Moataz brings a strong operational and strategic perspective to the stage. His expertise spans overseeing complex facilities, driving service excellence, and aligning FM functions with broader organizational objectives.

Throughout his career, he has focused on building efficient, resilient, and performance-driven facility management systems that support long-term sustainability and operational stability.

At EFMF 2026, Moataz will contribute valuable insights on industry best practices, leadership in facilities operations, and the evolving role of FM in delivering measurable business impact.

José Patricio

Operations Director

Representing TK Elevator, José brings more than 20 years of leadership experience in operations, large-scale engineering projects, and multi-country management across the Middle East and Europe.

As Operations Director for TK Elevator Middle East, he oversees operations across seven countries, driving performance, standardization, and continuous improvement across installation, service, and modernization functions. His experience spans major mobility and infrastructure projects, where he has consistently delivered operational excellence, business improvement, and organizational transformation.

José is widely recognized for his ability to lead complex projects, optimize operational performance, and align engineering execution with safety, quality, and long-term value creation.

Mostafa Galal

Head of Commercial &
Business Development

Mostafa Galal, Head of Commercial at Perfect Pro Facility Management, as a speaker at the Egypt Facility Management Forum (EFMF) 2026.

With over 14 years of experience in facility management, commercial strategy, and business development, Mr. Mostafa brings a strong perspective on aligning commercial performance with operational delivery. Holding an MBA, he has consistently focused on driving efficiency and value across FM operations.

Throughout his career, Mr. Mostafa has specialized in optimizing FM contracts, improving cost efficiency, and implementing performance-driven models that position facility management as a value-driven function rather than a cost center.

Tarek el Beshlawy

Co-founder

Tarek El Beshlawy, Co-Founder of AlignTech Solutions, as a speaker at the Egypt Facility Management Forum (EFMF) 2026.

With over 20 years of experience, Mr. Tarek is a serial entrepreneur operating across Egypt and the Middle East in information technology, business solutions, and Automated Identification and Data Capture (AIDC). Throughout his career, he has founded and scaled multiple ventures delivering enterprise-grade software, mobility solutions, and digital transformation services across diverse industries.

At AlignTech Solutions, he plays a key role in shaping product strategy and driving innovation, with a focus on CMMS and CAFM systems that help organizations optimize maintenance operations, enhance asset performance, and gain full visibility across their facilities.

Wael Hamdallah Ali

CEO

Wael Hamdallah, CEO of El Salam Facilities Management Company, as a speaker at the Egypt Facility Management Forum (EFMF) 2026.

With over 20 years of experience across hospitality and integrated facilities management, he brings a strong operational and leadership perspective shaped by managing large-scale, high-performance environments across leading organizations including Four Seasons Hotels, EFS, KBH Solutions, and M Squared Hospitality.

DR. Amr Abdelrahman

Planning Consultant

Dr. Amr Abdelrahman, Planning Consultant at ElSalam Facilities Management , as a speaker at the Egypt Facility Management Forum (EFMF) 2026.

Dr. Amr is a specialist in quality assurance, strategic planning, institutional development, and industrial and educational management systems. He holds a Ph.D. in Educational and Human Sciences with a specialization in Sustainable Environmental Development and Project Management from Sadat City University.

Combining strong academic expertise with practical industry experience, Dr. Amr has contributed to the development and implementation of quality management systems across educational, industrial, and service institutions. His work includes supporting organizations in achieving ISO certifications, while driving operational improvement and institutional performance development.

Throughout his career, he has served in leadership and academic roles, including Executive Director of Quality Assurance and Accreditation Units, while also delivering professional training programs in quality management, environmental systems, strategic planning, and institutional development.

Omar ElSherif

Principal Consultant & board member

Omar El Sherif, Principal Consultant & Board Member at MegaSoft, as a speaker at the Egypt Facility Management Forum (EFMF) 2026.

With over 15 years of experience and a portfolio of 50+ projects, Mr. Omar brings a strong consulting and technology-driven perspective to the industry. He specializes in leveraging IBM solutions to address complex challenges in Enterprise Asset & Facility Management, as well as Data and AI.

Throughout his career, Mr. Omar has partnered with multinationals, government entities, and large enterprises across the Middle East and Africa, delivering solutions that enhance operational efficiency and support smarter decision-making. His work increasingly focuses on the intersection of technology, data, and sustainability.

Paul Brown

Regional director

Paul Brown, Regional Director at Planon, as a speaker at the Egypt Facility Management Forum (EFMF) 2026.

With over 25 years of experience in enterprise technology and digital transformation, Paul brings a strong strategic perspective on optimizing real estate, facilities operations, and built environments. At Planon, he supports organizations across the Middle East in adopting Integrated Workplace Management System (IWMS) solutions that enhance portfolio visibility, asset performance, and operational efficiency.

Throughout his career, Paul has worked with executive stakeholders across large-scale and complex environments, including government entities and giga-project developments, helping organizations move toward more integrated, data-driven operating models.

Mohamed Shams

Founder & CEO

Mohamed Shams, Founder & CEO of Prosper Egypt Group, as a speaker at the Egypt Facility Management Forum (EFMF) 2026.

With over 17 years of experience in facility management, operational excellence, and business transformation, Mr. Mohamed brings a strong leadership perspective on delivering integrated, high-performance FM solutions. As Founder & CEO, he leads Prosper Egypt Group's vision to provide technology-driven and sustainable services across Egypt and the region.

Throughout his career, Mr. Mohamed has built and led high-performing teams, driving consistent growth and positioning Prosper as a trusted partner for leading organizations. His approach focuses on accountability, innovation, and continuous improvement to enhance efficiency and service quality.

Ahmed Torki

vice chairman

Dr. Ahmed Abdelhamid Torki, Strategic Advisor for Medical Asset Management & Governance, as a speaker at the Egypt Facility Management Forum (EFMF) 2026.

With over 20 years of experience across Egypt and the GCC, Dr. Torki brings a strong strategic perspective at the intersection of medical technology, asset governance, and healthcare operations. His expertise spans medical asset planning, procurement, lifecycle governance, and aligning clinical requirements with long-term investment value.

Throughout his career, Dr. Torki has held senior leadership roles and contributed to major healthcare projects in Egypt and Kuwait, supporting operational readiness, cost optimization, and sustainable asset performance across complex healthcare environments.

Omar Morsi

General Manager

Omar Morsi, General Manager at Dynachem Egypt, as a speaker at the Egypt Facility Management Forum (EFMF) 2026.

With over 15 years of leadership experience in industrial hygiene solutions and market expansion, along with more than a decade leading Dynachem ME, Mr. Omar brings a strong commercial and operational perspective to the industry. His experience spans driving business growth, expanding regional presence, and delivering high-performance solutions across the Middle East.

In addition to his leadership roles, Mr. Omar is a Board Member at Samoral and Co-Founder of WePadel Egypt, reflecting a diverse entrepreneurial background. He is also actively engaged in economic development through his role as Vice President of the Export Committee at the Alexandria Business Association (ABA).

Nermeen Barakat

Head of Facility Management at
Banque Misr and Head of
Development and International
Branches

We are pleased to announce Nermeen Barakat, Head of Facility Management and Development & International Branches at Banque Misr, as a speaker at the Egypt Facility Management Forum (EFMF) 2026.

With extensive leadership experience in facilities management and development within the banking sector, Ms. Nermeen brings a strong strategic perspective on digital transformation, sustainability, and operational excellence. She currently leads key initiatives focused on digitalizing facility operations and driving institutional transformation across Banque Misr's network.

A Certified Facility Management Professional (FMP), Ms. Nermeen combines specialized expertise in administrative buildings management with advanced leadership development through programs at Harvard University and the Global Women in Management initiative in Washington.

Beyond her executive role, Ms. Nermeen also contributes to industry growth as a Board Member at Al Adnan Tourism Investment Company and the National Housing Company, reflecting her continued impact across multiple sectors.

Emad Adel

Regional Managing Director - MENA

Emad Adel, Regional Managing Director – MENA at CBRE EXCELLERATE_MENA, as a speaker at the Egypt Facility Management Forum (EFMF) 2026.

With over 20 years of experience leading and transforming multi-country organizations across the Middle East and Africa, Mr. Emad brings a strong leadership perspective on operational excellence, business growth, and customer-centric service delivery. His expertise spans real estate, facilities management, engineering, and mission-critical environments.

Throughout his career, Mr. Emad has successfully led large-scale operations and driven organizational transformation, with a focus on scaling performance, enhancing efficiency, and delivering sustainable growth across complex regional markets.

Dr. Mohamed Mandour

Chairman and Managing Director

Major General Dr. Mohamed Mandour, Chairman and Managing Director of The Arab Contractors for Facility Management Company, as a speaker at the Egypt Facility Management Forum (EFMF) 2026.

With extensive leadership experience in management, institutional development, and facility management, Major General Dr. Mohamed Mandour brings a distinguished strategic perspective shaped by years of executive leadership and public service. His expertise spans organizational management, human resources development, and operational leadership across complex institutional environments.

Holding a Master's Degree in Economic Management of Institutions and a PhD in Management Philosophy and Human Resources Development, Dr. Mandour combines academic excellence with practical leadership experience. He also serves as Chairman of the Government Relations and External Communications Committee at the Egyptian African Businessmen Association.

Dr. Hoda Ibrahim

HOD for Sustainability and Climate Change department and Saudi Diyar Consultants

Dr. Hoda Ibrahim, Head of Sustainability and Climate Change Department at Saudi Diyar Consultants, as the Moderator for one of our key panel discussions at the Egypt Facility Management Forum.

With over 20 years of experience across the MENA and Africa region, Dr. Hoda is a leading voice in sustainability and environmental strategy. Holding a PhD in Sustainable Development and multiple globally recognized credentials including LEED Fellow, WELL AP, EDGE Auditor, and USGBC Faculty, she brings unparalleled expertise and a distinguished perspective to the field. Notably, she is the only woman in the MENA and Africa region to hold the prestigious LEED Fellow recognition.

Prof. Dr. Sayed Ismail

Professor of Sanitary and Environmental Engineering, Ain Shams university and former deputy minister of housing for infrastructure

Prof. Dr. Sayed Ismail, Professor of Sanitary and Environmental Engineering at Ain Shams University and Former Deputy Minister of Housing for Infrastructure, as a Panelist at the Egypt Facility Management Forum.

With over 26 years of leadership in the water and sanitation sector, Prof. Dr. Sayed has played a pivotal role in shaping Egypt's infrastructure landscape. From leading national strategies and large-scale investment programs to advancing sustainable water, wastewater, and desalination projects, his impact spans policy, implementation, and innovation. His work has also been instrumental in mobilizing multi-billion-dollar investments and strengthening institutional and regulatory frameworks across the sector.

Combining academic excellence with extensive public service, Prof.

Dr. Sayed brings deep technical expertise and strategic insight into sustainable infrastructure, resource management, and long-term sector development.

Mohamed Essam

Chief Executive Officer and Board
Member Eltizam Asset Management Group

Mr. Mohamed Essam, CEO, Managing Director, and Board Member of Eltizam Asset Management Group, as a Panelist at the Egypt Facility Management Forum.

With over 19 years of leadership across real estate development, asset management, and integrated facilities services, Mr. Mohamed brings a wealth of experience in transforming complex portfolios into high-performing, value-driven enterprises. Having led large-scale operations across leading regional organizations and built asset management platforms overseeing billions in value, his perspective bridges strategy, innovation, and operational excellence.

Recognized for his expertise in digital transformation, ESG-driven asset management, and portfolio optimization, Mr. Mohamed continues to shape the future of integrated facilities and asset management across the Middle East.

Tarek Seif

Executive Director

Dr. Tarek Goma Mohamed Seif, Executive Director of the Financial Services Institute (FSI), as a Panelist at the Egypt Facility Management Forum.

With over 30 years of experience across the global insurance sector, financial regulation, and capacity building, Dr. Tarek brings a unique perspective at the intersection of finance, sustainability, and governance. Through his leadership at FSI and the Regional Center for Sustainable Finance (RCSF), he plays a pivotal role in advancing sustainable finance, supporting climate action, and shaping the Voluntary Carbon Market across Egypt and the wider region.

A key contributor to Egypt's carbon governance framework and an active member of international platforms such as IOSCO and GFANZ, Dr. Tarek combines global insight with deep local expertise. His extensive background across leading institutions and regulatory bodies reinforces his impact on strengthening financial systems, governance, and enterprise risk management.

Eng. Ahmed Othman

Chief Technology Officer

Eng. Ahmed M. Othman, Head of Information Technology Sector at The Arab Contractors for Facility Management, as a Panelist at the Egypt Facility Management Forum.

With over 30 years of experience in IT solutions, Enterprise Asset Management (EAM), and ERP systems, Eng. Ahmed has led the successful delivery of more than 120 large-scale projects across the Middle East. His portfolio includes major implementations such as IBM Maximo for high-profile organizations including the Qatar Olympic Committee, Kuwait University, Cairo Oil Refining Company, and Sohar Refinery.

A specialist in digital transformation, Eng. Ahmed focuses on integrating advanced technologies such as Digital Twin, IoT, and AI into facility management operations. His work continues to drive enhanced asset performance, operational efficiency, and data-driven decision-making across complex infrastructure environments.

Mostafa Fahmy

Sr. Manager Fixed Enterprise
Marketing

Mr. Mostafa Fahmy, Sr. Manager Fixed Enterprise Marketing at Orange Egypt, as a Panelist at the Egypt Facility Management Forum.

With 19 years of experience in telecom and B2B services across leading operators in Egypt, Mr. Mostafa brings strong expertise in enterprise solutions, connectivity, and digital enablement. His work focuses on delivering innovative communication infrastructures that support business growth and operational efficiency.

Through his role at Orange Egypt, he contributes to advancing smart solutions that empower organizations with reliable connectivity and data-driven capabilities, playing a key role in enabling digital transformation across industries.

Eng. Mohamed Abd El Raouf

senior operations manager

Eng. Mohamed A. Raouf, Zone Head at Contrack Facilities Management, as a Panelist at the Egypt Facility Management Forum.

With over 27 years of experience in facilities management, operations, maintenance, and asset management, Eng. Mohamed brings extensive expertise in leading complex FM operations and delivering high-quality service performance. His leadership spans managing multidisciplinary teams and driving client-focused operational excellence across diverse environments.

Holding certifications including PMP, NASP, and CSSYB, he is deeply committed to positioning facility management as a strategic, value-creating function. His approach focuses on enhancing asset lifecycle performance, ensuring service reliability, and promoting sustainability through continuous improvement.

Hany Salah Mohamed

Head of Services Sales

Dr. Hany Salah, Head of Services Sales – Schneider Electric NEA, as a Panelist at the Egypt Facility Management Forum.

With over 25 years of professional experience and more than 18 years in services and solutions, Dr. Hany brings deep expertise in project management, risk management, and strategic leadership. His career spans leading roles in global organizations, alongside his contributions as a trainer and consultant in project and risk management.

Holding multiple prestigious certifications including PMP, RMP, and IPMA, in addition to an MBA and DBA in Strategic Management, Dr. Hany is recognized for his strong ability to align operational excellence with long-term sustainability goals.

Mina Fayek

Managing Director

Mr. Mina Fayek, Managing Director of Egypro FME, as a Panelist at the Egypt Facility Management Forum.

With a strong track record in financial management, operational restructuring, and commercial strategy, Mr. Fayek has successfully led the transformation of Egypro FME into a more efficient, profitable, and data-driven organization. His leadership has driven measurable impact, including significant growth in business volume, enhanced cost efficiency, and improved profitability.

Bringing a diverse background across facility management, marketing, and sales, Mr. Fayek combines strategic vision with operational excellence. His expertise in implementing performance-driven systems and optimizing operations positions him as a key voice in advancing sustainable and efficient facility management practices.

.

Islam Khalil

AECO Technical specialist

Mr. Islam Khalil, AECO Technical Specialist at Autodesk, as a Moderator at the Egypt Facility Management Forum.

With a strong focus on digital transformation within the AEC industry, Mr. Islam brings valuable expertise in guiding organizations through technology-driven change. His work centers on advancing digital strategies, AI governance, and enabling smarter, more efficient operations across the built environment.

Holding an MBA in Digital Transformation Strategies, he plays a key role in supporting the adoption of innovative solutions that reshape how facilities are designed, managed, and optimized.

Sherif Ahmed Salah Eldin

CEO

Mr. Sherif Ahmed Salah Eldin Moussa, Founder and CEO of SIAC Assets & Facilities Management, as a Panelist at the Egypt Facility Management Forum.

With over 20 years of progressive leadership across Egypt, Saudi Arabia, and the MENA region, Mr. Sherif is a visionary in the facilities management industry. He has successfully built and scaled SIAC Assets & Facilities Management into one of the top FM companies in Egypt, demonstrating exceptional expertise in driving growth, operational excellence, and regional expansion.

His experience spans the full FM lifecycle across diverse and complex sectors including healthcare, education, hospitality, telecommunications, and government infrastructure. Having held senior roles at leading institutions such as The American University in Cairo, Smart Villages, and Children's Cancer Hospital 57357, he brings a well-rounded and impactful perspective to the industry.

An internationally recognized speaker and contributor to Egypt's national FM guidelines, Mr. Sherif combines academic excellence with practical leadership, holding advanced degrees in Facilities Management and Civil Engineering, and actively shaping the future of the FM profession.

Mary Sabry Moussa

CHRO & Transformation Consultant

Ms. Mary Sabry, CHRO, Transformation Consultant, as a Panelist at the Egypt Facility Management Forum.

With more than 20 years of experience in Human Resources across diverse industries including real estate development, construction, FMCG, manufacturing, hospitality, automotive, and facility management, Ms. Mary brings a strategic and people-centered perspective to organizational growth and transformation.

Throughout her career, she has worked closely with executive leadership teams to shape impactful people strategies, strengthen corporate governance, and build high-performance cultures that align business goals with human potential. Her expertise also extends to leadership advisory, executive coaching, and leadership development, helping organizations navigate complexity and drive sustainable transformation.

Passionate about the future of work, Ms. Mary focuses on guiding organizations through people transformation in the age of AI while maintaining a human-centered approach to leadership and growth.

Tarek Attia Bayoumy

Professor, Construction
Engineering and Management

Dr. Tarek Attia Bayoumy, Professor of Construction Engineering and Management, as a Panelist at the Egypt Facility Management Forum.

With over 30 years of experience across construction engineering, facility management, green buildings, and project management, Dr. Tarek brings a wealth of knowledge in shaping national frameworks and advancing industry standards. His expertise spans PMO establishment, strategy development, codes and regulations, and applied research, making him a key contributor to both academic and professional fields.

Dr. Tarek has played a significant role in the development of major national codes and systems, including the Egyptian Code of Construction Project Management, the Green Pyramids Rating System (GPRS), and guidelines for operation and maintenance of public and heritage buildings. His contributions also extend to smart cities development and national strategies across Egypt and Saudi Arabia.

Manal Aly

Professor at the Housing and Building
National Research Center

Prof. Dr. Manal Abdelhamid, Professor at the Housing and Building National Research Center (HBRC), as the Moderator at the Egypt Facility Management Forum.

With over 30 years of experience in civil engineering, project and construction management, and quality systems, Prof. Dr. Manal is a leading authority in developing national standards and advancing the built environment sector. She has played a pivotal role in establishing the Construction Engineering and Project Management Institute at HBRC and has contributed extensively to academic research, professional training, and industry development.

A key contributor to numerous Egyptian codes and guidelines including the Egyptian Project Management Code, Smart Cities Code, Egyptian BIM Standards, and Egyptian Facility Management Guidelines, Prof. Dr. Manal brings unmatched expertise in regulation, standardization, and sustainable development.

Mohamed Medhat

Managing Director of Sustainable
Green Energy & Energy Systems BU

Mr. Mohamed Medhat, Managing Director, Sustainable Green Energy & Energy Systems BU at KORRA ENERGI, as a Panelist at the Egypt Facility Management Forum.

With over 16 years of experience spanning energy efficiency, power generation, decarbonization technologies, and integrated energy systems, Mr. Medhat brings deep expertise at the intersection of innovation and sustainability. From waste-to-energy and heat recovery solutions to green technology localization, his insights will add valuable perspective to the discussion on shaping smarter, more sustainable facilities.

Ramy Zakaria Ahmed

QHSE & Risk Management Manager

Mr. Ramy Zakaria Ahmed, QHSE & Risk Management Manager at Eden Facility Management, as a Panelist at the Egypt Facility Management Forum.

With over 18 years of experience across facility management and industrial sectors, Mr. Ramy brings deep expertise in risk identification, assessment, and mitigation. His work focuses on embedding risk-based thinking into organizational strategies, enabling informed decision-making and driving sustainable performance.

A CQI & IRCA Certified Lead Auditor for ISO 45001, ISO 14001, and ISO 9001, he has a strong track record in audits, compliance, and continuous improvement of integrated management systems. His leadership in developing risk frameworks and strengthening safety culture plays a key role in enhancing organizational resilience and long-term success.

Ahmed Tarek

Facility Manager

Mr. Ahmed Tarek, Facility Manager at City Edge Developments, as a Panelist at the Egypt Facility Management Forum.

With over a decade of experience across real estate development, construction, and facility management, Mr. Ahmed leads strategic FM operations across key national projects, including the New Administrative Capital and New Mansoura. His expertise spans operational optimization, budget management (OPEX/CAPEX), and the implementation of advanced CAFM systems to ensure efficient, high-quality facility performance.

Having held key roles at leading organizations such as Emaar Misr, IMKAN MISR, and Hassan Allam Construction, Mr. Ahmed brings a well-rounded perspective grounded in both technical and managerial excellence. A Certified Facility Manager (CFM) with an MBA (Excellent), he is committed to delivering world-class standards in maintenance, safety, and operational efficiency.

CITY EDGE
DEVELOPMENTS

Dr. Heba Hassan

HR Director

Dr. Heba Hassan, HR Director at Eltizam Egypt, as the Moderator at the Egypt Facility Management Forum.

With extensive experience across human resources, facility management, and property management, Dr. Heba brings a well-rounded and strategic perspective to people leadership within complex, multi-site organizations. Her expertise lies in aligning HR strategies with business objectives to drive operational efficiency, workforce effectiveness, and service excellence.

Throughout her career, she has led critical HR functions including talent acquisition, organizational development, performance management, and workforce planning, while playing a key role in managing organizational transformation and strengthening leadership capabilities.

Sherif Maged

Partner and CEO

Eng. Sherif Maged Khaled, CEO of CSM Advisory Consultation Office and Africa FM Chair, as a Panelist at the Egypt Facility Management Forum.

With over 29 years of experience in facility management, real estate, sustainability, and project management, Eng. Sherif is a distinguished industry leader with a strong regional and international presence. His career spans strategic leadership, consultancy, and education, contributing to the advancement of FM practices across Egypt, Africa, and the Middle East.

A Co-Founder and former Vice Chair of EGYFMA, as well as a former Global FM board member, Eng. Sherif has played a key role in shaping the FM industry and driving its professionalization. His contributions extend to academia as an instructor and course developer at the American University in Cairo, alongside his involvement in international conferences, training programs, and judging panels.

Recognized with the Falcons Award at EFMF 2025, Eng. Sherif continues to influence the future of facility management through thought leadership, standardization efforts, and capacity building across the sector.

Louai Motawl

Operations Director Egypt & KSA

Mr. Louai Motawai, Property & Facilities Management Director | PM & Feasibility Studies Consultant, as a Panelist at the Egypt Facility Management Forum.

With over two decades of experience across telecommunications, real estate, and facility management, Mr. Louai brings a comprehensive and hands-on perspective to the industry. His career spans leadership roles at major organizations including Vodafone Egypt, Regus, Majid Al Futtaim Properties, Etisalat Egypt, and Majorel-TP, where he managed diverse functions ranging from construction and maintenance to real estate, administration, and large-scale FM operations.

Currently serving as Operations Director at Contrack FM, he oversees operations for more than 140 clients and leads a workforce exceeding 5,000 professionals, driving operational excellence and service delivery across multiple sectors.

A member of the Egyptian Committee for the development of the Egyptian Code of Facilities Management, Mr. Louai plays an active role in shaping the regulatory framework and advancing industry standards

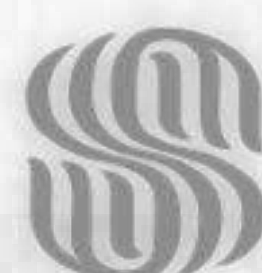

Mohamed Abozeid

HR Director

Mr. Mohamed Abozeid, Director of Human Resources, as a Panelist at the Egypt Facility Management Forum.

With over 15 years of experience across HR and the hospitality industry, Mr. Mohamed has worked with leading global brands including Marriott International, Starwood Hotels & Resorts, and Sonesta Hotels. He brings strong expertise in building HR structures from the ground up, leading mass recruitment, and ensuring full compliance across large-scale operations.

Specializing in hotel re-opening and renovation projects, he combines his background in Law and Hotel Management to drive operational excellence and foster high-performing teams in dynamic environments.

SONESTA

HOTELS AND RESORTS

Haidy Mostafa

HR Director

Ms. Haidy Mostafa Kamel, HR Director at Eden Facility Management, as a Panelist at the Egypt Facility Management Forum.

With over 10 years of experience driving HR transformation across Egypt and KSA, Ms. Haidy has successfully managed large-scale workforces exceeding 4,000 employees across more than 70 projects. She brings strong expertise in aligning human capital strategies with business growth across facility management, energy distribution, and catering sectors.

Her experience spans high-volume recruitment, HR digitalization (SAP & HRIS), employee engagement, and organizational development, with a proven ability to build scalable HR infrastructures in complex, labor-intensive environments.

Dr. Mohamed El Deeb

CEO of SODIC Property
Management and the Chairman of
Edara Property Management

Dr. Mohamed El Deeb, CEO of Property Management at SODIC & Chairman of Edara Property Management, as a Panelist at the Egypt Facility Management Forum.

With over 30 years of C-suite leadership experience in real estate development across Egypt and the UAE, Dr. El Deeb has overseen the full lifecycle of major megaprojects, driving excellence in property and facility management. His leadership is rooted in delivering high-quality solutions that enhance the quality of life for communities and customers alike.

Holding a PhD in Construction Management from Ain Shams University and serving as a Certified Instructor at IFMA, Dr. El Deeb combines academic depth with extensive practical expertise, making him a key voice in advancing the facility management profession.

Mohamed Elmelegy

Director of QHSE

Mr. Mohamed Mahmoud Elmelegy, Director of QHSE, as the Moderator at the Egypt Facility Management Forum.

With over 15 years of experience leading complex, multi-disciplinary facility management operations across the GCC and Egypt, Mr. Mohamed brings deep expertise across a wide range of sectors including commercial, residential, hospitality, healthcare, telecommunications, and industrial environments.

His experience in managing mega projects and landmark developments such as The Dubai Mall, Abu Dhabi Global Market, and ADNOC Headquarters Offshore reflects his strong capabilities in asset lifecycle optimization, risk management, and operational excellence. He is recognized for implementing integrated FM systems that enhance asset performance, improve cost efficiency, and ensure resilient operations.

Holding multiple international certifications including CFM, NEBOSH, IOSH, OSHA, and ISO standards, Mr. Mohamed is a strong advocate for best practices in quality, health, safety, and sustainability.

Sherif Hallouda

CTO & Director of E-payment Division

Mr. Sherif Hallouda, CTO & Director of the E-payment Division at Al Amin Technological Systems, as a Panelist at the Egypt Facility Management Forum.

With over 26 years of experience in fintech and digital solutions, Mr. Sherif has played a key role in driving innovation and digital transformation within the e-payment ecosystem. Through his leadership at Al Amin Technological Systems, he has contributed to delivering advanced technological solutions and strategic growth across national and international markets.

Leading a client-focused business unit serving financial institutions, fintech companies, and payment partners, Mr. Sherif brings extensive expertise in smart technologies, digital integration, and data-driven innovation that support operational efficiency and business growth.

Amr Nour

Chief Executive Officer

Mr. Amr Nour, Chief Executive Officer & Co-Founder of IoT Misr, as a Panelist at the Egypt Facility Management Forum.

With over 15 years of experience in the IT industry, Mr. Amr brings a strong blend of technical expertise and strategic consultancy across infrastructure monitoring, networking, cybersecurity, and hardware solutions. His career journey from Technical Implementer and Support Engineer to IT Consultant and business leader has equipped him with a deep understanding of how technology can drive operational performance and business value.

As CEO of IoT Misr, he focuses on helping organizations adopt smarter, data-driven technologies that enhance efficiency, improve decision-making, and deliver long-term ROI through digital transformation initiatives.

Mohamed El khatib

Facility Manager

Eng. Mohamed Sayed El Khatib, Facility Manager at Gila Al Tawakol Electric, as a Panelist at the Egypt Facility Management Forum.

With a strong background in facility operations and maintenance leadership, Eng. Mohamed brings a proactive and strategic approach to facility management. His professional journey from Facility Engineer to leadership roles has shaped his expertise in operational performance, cost efficiency, and long-term asset reliability.

Driven by the belief that maintenance is not just a support function but a true business driver, he focuses on building preventive systems that enhance continuity, improve efficiency, and create measurable operational impact
